Learnline could improve my learning by:

Students
1. Could students use Collaborate for their students meetings as a group because it offers audio, video and screen sharing by one application. We had to use different applications (which help me to learn new things) but the biggest problem was sharing interactive screen for meetings.
2. giving some suggestions and recommendation regarding each topic, which would helpful for newcomers.
3. I don't know
4. nothing that i can think of.
5. Assisting me on the right way to proceed on my assignments and study.However it improves my self study skill as well.
6. providing all the information i need to know.
7. N/A
8. Incorporating a group section
9. USED TWO SITES IN THIS COURSE - UCROO & LEARNLINE. IS IT POSSIBLE TO COMBINE INTO ONE, OR DIFFERENT STYLES.
10. Learnline was amazing

What are the strengths of this unit?

Students
1. Well planned tasks orientated towards a final assignment.
2. it make a person creative and enhance mental ability.
3. The fact that though it is offered externally all information needed is provided.
4. Improving researching skills and team-work.
5. nothing.
6. This unit helps us to form a group by which we could share knowledge and mutual understanding with other different individual which is really a very good step to enhance global knowledge.
7. designing the technology for developing country.
8. - Group Related - Project Management Orrientated
9. Team building.
10. INSTRUCTOR EASY TO ACCESS AND QUICK RESPONSES TO QUESTIONS. WORKING WITH A TEAM FOR MOST OF THE COURSE - THAT WAS A STRONG LEARNING CURVE TO ORGANISE TO GET TOGETHER ESPECIALLY VIA VARIED INTERNET ACCESS AND STRONG WORK SCHEDULES WITH BOTH PARTIES. WORKED OUT WELL ONCE SORTED, BUT THAT TOOK AWHILE
11. The unit was great however the delivery and tutorials lacked academic resources
12. Teamwork with the members of the group. Learning to be independent in completing each tasks.

This unit could be changed in the following ways to improve my learning:

Students
1. UCROO unfortunately didn't cover all students needs for this unit, particular online conferencing.
2. it must me internal rather than external.
3. In this particular unit which is offered externally, I believe that the unit could be changed in order to ease external students, Take for example we are required to provide minutes every week on learnline. No lecturer has given us feedback on the minutes and I am not sure whether they are waiting to join all the minutes and then grade us and give feedback or give feedback for each so we can learn. Secondly the unit could be changed by making all students what all the assignments in the unit comprise of, because all of them are linked and choosing an

inappropriate project for one assignment will affect others.

4. i would have liked to have done this unit internally. i have found it annoying not being able to do it internally. doing it internally would have guaranteed me a higher overall mark.

5. As I have learned this unit externally, I guess if this unit could be taught internally then students could acquire more knowledge as I felt.

6. N/A

7. Improvement of communication between students and staff would improve my sense of connection with the course dramatically. As would more efficient time use of the tutorials via learnline, as I found that technical issues were the center of focus for most tutorials.

8. the unit was well presented, collaborate function often slow in buffering with slides etc

9. FOUND IT FRUSTRATING THAT LIVING REMOTE AND HAVING ISSUES WITH CONNECTIONS AT TIMES, THAT I FELT THERE WAS SOMETIMES AN EXPECTATION FOR QUICK REPONSES ON UCROO. DOING THIS COURSE EXTERNALLY AS I DON'T ALWAYS HAVE ACCESS AND CAN TAKE UP TO A WEEK TO RESPOND DUE TO TECHNICAL/WORK ISSUES. I AM DEFINATELY NOT ALWAYS LOGGED ON DAILY.
I DON'T KNOW HOW TO CHANGE THIS EXCEPT BY PERSONALLY EXPLAINING & WORKING IT OUT WITH INDIVIDUALS
